**Letter of Support for the NFDI-Initiative Text+: *Language- and Text Based Research Data Infrastructure***

Dear Professor Hinrichs,

I hereby express my commitment to act as a liaison partner for Text+ to the European Open Science Cloud (EOSC). Currently, I am co-chair of the EOSC working group on “Rules of Participation” by way of a nomination process from the Federal Ministry of Education and Research (BMBF) and the Alliance of Science Organization in Germany. Additionally, as Scientific Co-Ordinator of OpenAIRE and as partner in several European projects, among them RDA-Europe, I am prepared to provide consultancy for Text+ on structural embedding with European networks in general and, going forward, EOSC. As board member of international organisations such as the Confederation of Open Access Repositories, Lyris, Dryad or the Hathi Trust Research Center, I offer my expertise to Text+ how to network internationally and how to build and maintain a sustainable organization.

Prof. Dr. Wolfram Horstmann
